- ✧ **100 YEARS, 100 EVENTS: 1940S**
350424 DV
JSA 60 min 2010 Film Ideas, Inc.
DISC 5: 1940: Hitler In Paris; 1941: The Attack On Pearl Harbor; 1941: The Attack On Russia; 1942: Auschwitz; 1943: The Unbelievable Horror: A Boy From Warsaw; 1943: Stalingrad; 1944: D-Day; 1945: The Bomb At Hiroshima; 1945: The Capitulation; 1946: The Nuremberg Trials; 1947: The Fight For Jerusalem; 1948: Aid Shipments For Berlin; 1949: The Founding Of The East And West German States Every decade has its share of important events. But in this completely engrossing series we bring you only the best, the most far-reaching, the most worldly, and the most consequential. It is extremely rare that a series of this magnitude can offer such a unique clarity of events, credibly enhanced by only the "most privy" in insider accounts. Broken into timelines, by decade, this spellbinding series encompasses a 100 YEAR span of history by focusing on only the most notable. It's all covered! A must have collection that captures the significance of wars, politics, tragedies, achievements, influences, events and people.

POLITICS**
350423 DV
JSA 25 min 2005 Film Ideas, Inc.
This hip, high-energy, look at the
democratic process is designed to
empower young people to flex their
civic muscle. The informative program
delivers its civic lessons in
manageable chapters, which includes
among others, getting registered to
vote, the voting process and effective
ways to contact public officials. By
using a cutting edge sound track,
creative edits, and high-powered
graphics, The Guerrilla Guide to
Politics stays in touch with the
intended audience while offering a
well researched, non-partisan and
issue neutral approach. Viewers learn
the real value of taking part in the
political system.

FOR TEENS BY TEENS! What make
this program particularly unique are
the stories from a male victim as well
as siblings and friends. The program
is organized into sections which first
teach teens how to identify abuse and
then answer these important
questions: What happens next? Why
not leave? When did you realize?
How do you get out? Who can help?
Where do you go from here? What
would you tell others? This program
raises awareness about the various
resources available – teachers,
counselors, friends, parents – and
also encourages bystanders to speak
out.

THE UNIVERSE - DISC 4 [350489]

* THE UNIVERSE - DISC 1

350486 DV
JSA 141 min 2009 Library Video
THE UNIVERSE SERIES - DEATH STARS Learn what threatens planet Earth, including gamma-ray bursts, supernovas and colliding stars. THE DAY THE MOON WAS GONE This episode explains how the moon controls Earth's universe. Viewers discover that without the moon, the Earth would spin faster and give us shorter days and stronger winds. Life on planet Earth would also be in danger. IT FELL FROM SPACE Scientists research the natural phenomena and mystery of the cosmos to learn why natural and man-made objects crash into Earth's atmosphere. Some of the objects have been identified as pieces of Mars.

Space Science-Space Science; Science-Space Science; Science Fiction

* THE UNIVERSE - DISC 2

350487 DV
JSA 141 min 2009 Library Video
THE UNIVERSE SERIES - Bigger Blasts A countdown is featured of the biggest, most powerful blasts to hit the cosmos in this episode. Discover how and why the universe is full of explosions that are designed to create and destroy. The Hunt for Ringed Planets Probe the science behind the structure of the planets, including the physics that form the planetary rings around Saturn and Neptune. The program also explores the extrasolar planets. 10 Ways to Destroy the Earth Experts in this episode imagine ten ways to destroy Earth, such as colliding with another galaxy and swallowing it with a microscopic black hole. Other scenarios include blowing

it up with anti-matter and hurling it into the sun.

Space Science-Space Science; Science-Space Science; Science Fiction

* THE UNIVERSE - DISC 3

350488 DV
JSA 141 min 2009 Library Video
THE UNIVERSE SERIES - The Search for Cosmic Clusters Explore some of the largest structures in the universe, known as cosmic clusters. Discover how these millions, and sometimes billions, of stars collect to form open and globular clusters. Space Wars Investigate how the physics beyond Earth's atmosphere govern the future of warfare. Experts note that lasers and phasers may replace missiles and machine guns. Discover whether rival nations are already battling in space by delivering warheads via low earth orbit, as well as targeting each other's satellites. Liquid Universe Although the universe is filled with water, and water is regarded as the key to life, this program raises awareness of other strange liquids that are floating around in the universe, including iron rain, oceans of methane and blobs of alcohol.

Space Science-Space Science; Science-Space Science; Science Fiction

* THE UNIVERSE - DISC 4

350489 DV
JSA 141 min 2009 Library Video
THE UNIVERSE SERIES - Pulsars & Quasars Study the most accurate clocks in the universe known as the pulsars, which are superheated orbs with rapid rotations. Discover the significance of the quasars, which are massive rotating galaxies that burn with the same level of energy as a trillion suns. Quasars are also responsible for some magnificent interstellar pyrotechnics. Science Fiction/Science Fact Viewers learn whether certain elements featured in sci-fi movies, including transporters and wormholes, really exist. Extreme Energy Experience the enormous amount of energy that the universe produces, including raw nuclear energy from the sun and powerful jets from black holes. Learn how electric, thermal and kinetic energy play a role in creating stellar displays and cosmic events.

* **WHY THE HATE?**

350471 DV
JSA 44 min 2004 films media group
In the aftermath of September 11th, George W. Bush made an ultimatum to the world: "Either you are with us or you are with the terrorists." But for many followers of Islam—a global community that includes more than a billion devotees—the choice is not that simple. This timely ABC News program explores the mixed emotions felt by many Muslims toward the U.S. Topics on the agenda include American culture, often perceived as offensive, and U.S. foreign policy, frequently viewed as threatening. By capturing individual opinions and attitudes, correspondent Chris Bury addresses common themes in an effort to answer the question of a stunned American populace: "Why do they hate us so much?" (44 minutes)
