Raising Drug Free Kids

596743 VH
T 60 min 2007 MCTFT/CADCA
Learn about the science of the adolescent brain so you can use the knowledge as another way to reach your teen with important prevention messages. The parent-child relationship is more complex now than it has ever been. Do kids know how to make difficult decisions about life and drugs without consulting their parents? Are underage drinking and drug use simply a rite of passage for teens? Do all teens experiment? Why is keeping the partying at home a bad idea? During this hour-long CADCA-TV show, we'll answer these questions and more.
